

AMMONIUM SULPHATE 21%

Crystalline powder 21-0-0

TYPICAL ANALYSIS:

Total Nitrogen (N): 21.00%

Ammoniacal Nitrogen (N): 21.00%

Sulphur dioxide soluble in water (SO₃): 60.00%

Sulphur soluble in water (S): 24.00%

Humidity: <1.00%

PRODUCT DESCRIPTION:

White or yellowish crystalline powder, odourless.

GRANULOMETRY:

Fine part, passing through the UNI 20 sieve: 47%

USES:

EC fertiliser for agricultural and technical industrial use.

PACKAGING:

In bulk on trucks, 600 kg big bags.

CAS: 6484-52-2

EINECS: 229-347-8

Chemical Formula: NH₄NO₃
